NOTICE
DAQE-726-99

ACT 10/5/99
#2

The following notice of intent to construct, submitted in accordance with Section R307-401-1, Utah Air Quality Rules, has been received for consideration by the Executive Secretary, Utah Air Quality Board:

Co-Op Mining Company

Location: Eleven miles west of Huntington, Utah on state highway 31

Project Description: Co-Op Mining Company has proposed to modify its existing Approval Order (AO), DAQE-487-96, dated May 2, 1996. The source is located in Emery County which is an attainment area for all pollutants. The AO was modified as follows: (1) increased throughput from 750,000 tons/year to 1,100,000 tons/year of coal, (2) allowed to use access road to Wildhorse Ridge, 1.0 mile, and (3) added additional conveyors and a 8,000-gallon capacity diesel storage tank to the approved equipment list. The existing methods of control for the emission points have been evaluated and are still considered to be adequate. Federal New Source Performance Standards Subpart Y (Standards of Performance for Coal Preparation Plants) regulation applies to this source. National Emission Standards for Hazardous Air Pollutants regulations do not apply to this source. Title V regulations apply to this source. A 30-day public comment period is required before granting an AO.

The Proposed Emissions increase will be:

PM ₁₀	4.47 tons/year
SO ₂	0.39 tons/year
NO _x	4.63 tons/year
CO	1.84 tons/year
VOC	0.42 tons/year

The engineering evaluation and air quality impact analysis have been completed and no new violations of National Ambient Air Quality Standards or Prevention of Significant Deterioration Increments will occur. It is the intent of the Executive Secretary to approve the construction project.

The construction proposal and estimate of the effect on local air quality are available for public inspection and comment at the Utah Division of Air Quality, Department of Environmental Quality, 150 North 1950 West, Salt Lake City, Utah 84114-4820. There will be a 30-day comment period held. Written comments received by the Division, at the same address on or before October 14, 1999, will be considered in making the final decision on the approval/disapproval of the proposed construction.

If anyone so requests to the Executive Secretary at the Division in writing, within 15 days of publication of the Notice, a hearing will be held to explain the project and technical rationale for proposed action. The hearing will be scheduled as close as practicable to the proposed project location. Comments obtained during the hearing will be evaluated and considered by the Executive Secretary before making a final decision on the approval/disapproval of the project.

Date of Notice: September 14, 1999
